I am a passionate **Web Developer** who loves creating beautiful and user-friendly web experiences. With hard work and dedication, I continuously improve my skills and I enjoy problem-solving and building interactive websites, making the web a better place for users.

PROJECTS

College Website | HTML, CSS, JAVASCRIPT

- Developed a responsive college website using **HTML**, **CSS**, **JavaScript** featuring a modern UI, modular components, and seamless navigation. Designed key sections like the homepage, course catalog, faculty directory, events, and contact page, ensuring scalability and maintainability.

Event Management System | HTML, CSS, JAVASCRIPT, MONGODB

- Designed and developed a web-based event management platform to simplify event scheduling, registration, and participant tracking. Built using Web development, ensuring a smooth, responsive, and user-friendly experience for managing events efficiently.

WeatherApp | JavaScript, CSS, HTML

- Developed a weather application that fetches real-time data using a third-party API. Built with HTML, CSS, and JavaScript to provide a seamless and interactive user experience.

Todo List | JavaScript, HTML, CSS

- Built a to-do list app with features to add, edit, delete, and mark tasks as complete for efficient task management.

INTERNSHIP

Web Development Internship | Internshala | [Link](#)

17-05-2023 – 14-08-2023

- Developed a responsive Quiz App with real-time quizzes, user authentication, and performance tracking. Implemented timer-based questions, score calculation, and category-wise quiz selection, ensuring an engaging user experience. Optimized both frontend and backend for seamless performance and scalability.

ACHIEVEMENTS

Code mind

- Solve more than **100+ Coding** problems.

Technical Support --- iEnergizer IT Pvt. Ltd, Bangalore

- Provided technical support to customer across India by diagnosing and resolving software and system issues. Collaborated with cross-functional teams to troubleshoot complex problems, document solutions, and ensure smooth daily operations.
